[EXTERNAL EMAIL]

Hi Becky,

I can confirm that the GRCA will not request additional studies/information to support this proposal. Below is a snippet from our mapping showing no regulated features on this property:

Here is a google street view looking upstream (north) from County Rd 9 (green dot on above map) where the County has 'Hazard lands' mapped. This feature would not qualify as a watercourse under our policies, and is therefore not regulated by the GRCA.

Thanks Becky. Please let me know if you have any further questions.

Chris

Hi Chris,

Thanks for your comments, attached.

I'm just noting that a small portion of this property (which would be impacted by the OPA/ZBA is designated as 'Hazard Lands' in the County's Official Plan. Based on your comments, I'm assuming that this may be a mapping error. Could you please confirm as such, and that GRCA would not be looking for any further studies/information to support this proposal?

Thanks very much,

Becky Hillyer
