Hi Clint,

My apologies it appears this one slipped through the cracks a bit. We will be getting you comments, but it won't be today (sorry). In general my recommendation would be to get comments from the conservation authority / RMO (which you likely already have), as well as the Ministry of the Environment Conservation and Parks (MECP). We've just gotten a second round of very detailed comments on DWSP policies in our new OP from MECP and they're definitely above and beyond the expertise of what County staff could provide. If you need us to circulate the Province from a formal 'one window' perspective just let us know.

Sorry again for the delays. What's your timing for bringing forward a final report to Council? Or when would you like comments by?
Thanks

Scott Taylor

Hi Randy and Scott,

We have a public meeting today for the SWP LOPA and I don't see any comments in the file from the County.

Just wondering if you were planning on getting any to us now or waiting until we submitted it for approval.

Regards
